- UI/UX Best Practices
- Testing & Debugging
- Agile Development

## TECHNICAL SKILLS

- Frontend:**
  - React.js
  - Next.js
  - JavaScript (ES6+)
  - Remix.js
  - Shopify Polaris
- Backend:**
  - Node.js
  - Express.js
- Database:**
  - MongoDB
  - Mongoose
- Other Skills & Tools:**
  - RESTful APIs
  - GraphQL API
  - VS Code
  - AI Editors
  - Postman

## LANGUAGE

- English (Fluent)
- Urdu (Native)

## PROFILE

Experienced and highly motivated Web Developer with over 3 years of professional experience in building full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Specialized in developing scalable, responsive, and user-centric applications with robust backend APIs and modern front-end interfaces. Proven track record of delivering high-quality software solutions, optimizing application performance, and leading frontend initiatives in Agile development environments.

## WORK EXPERIENCE

### Senior MERN Stack Developer – Digiware Solutions

May 2025 – Present

- Built a multi-distributor order management portal with unified customer tracking, fulfillment, and reporting workflows.
- Integrated Shopify REST and GraphQL APIs for seamless order synchronization, tracking, and fulfillment updates.
- Developed a custom Shopify app for a “Try Before You Buy” model, allowing customers to test products by paying an initial amount.
- Designed reusable UI components and optimized performance with Next.js SSR, dynamic imports, and API caching, enhancing speed and scalability.

### MERN Stack Developer – Sourcing Square

Jan 2022 – May 2025

- Led the development of a Next.js-based job platform featuring job listings, events, and advertising modules.
- Designed and implemented reusable components and integrated scalable REST APIs with MongoDB backend.
- Spearheaded performance optimization strategies using Next.js SSR and dynamic imports.
- Mentored junior developers, reviewed code, and ensured adherence to industry best practices.

## Projects

### Job & Advertising Platform (Next.js, REST API)

- A modern job portal inspired by Indeed and Jobrapido with job search, event listing, course modules, and application features.
- Implemented responsive UI, optimized for SEO and performance.
- Developed a platform inspired by Indeed and Jobrapido with job postings, event and course listings, advertising features, and job application functionality.

### Blog Management System (React.js, Node.js, MongoDB)

- Developed a full-stack application with user authentication and role-based access.
- Included blog CRUD, dashboard interface, and API integrations.
